Summary

MERN Stack Developer with **1+ year of experience** in designing, developing, and deploying scalable full-stack web applications. Strong expertise in **React, Node.js, Express, MongoDB**, RESTful APIs, and modern JavaScript. Proficient in Data Structures and Algorithms with hands-on experience in production debugging, performance optimization, and cloud deployment.

Technical Skills

Languages: JavaScript (ES6+), C++, HTML5, CSS3, Python
Frontend: ReactJS, Redux, Angular 14, Bootstrap
Backend: NodeJS, ExpressJS, REST APIs, GraphQL
Databases: MongoDB, PostgreSQL, MySQL
Cloud & DevOps: AWS, Jenkins, Netlify
Tools: Git (GitHub), Postman, VS Code

Education

Jodhpur Institute of Engineering & Technology   *Jodhpur*
B.Tech – Computer Science (AI & ML)   **Sep 2022 – Apr 2026**
CGPA: **7.70/10**

Work Experience

Regex Software Services Pvt. Ltd.   *Jaipur, India*
Full Stack Developer   **Mar 2025 – Aug 2025**
- Delivered hands-on training on **MERN Stack** to **30+ students**, covering React components, hooks, state management, and backend APIs.
- Developed RESTful APIs using **Node.js and Express** with MongoDB for CRUD operations and authentication.
- Guided students in building and deploying full-stack React projects on **GitHub and Netlify**.
- Reviewed code, fixed bugs, and improved application structure following industry best practices.

Spreadd   *Gujarat, India*
Full Stack Developer   **Jun 2024 – Jan 2025**
- Built and optimized full-stack web applications using **React, Node.js, Express, MongoDB**, and GraphQL.
- Integrated WhatsApp Business APIs using webhooks, improving user onboarding and increasing engagement by **10%**.
- Optimized GraphQL queries and backend microservices architecture, resulting in a **20% performance improvement**.
- Implemented secure payment workflows using **Razorpay SDK**.
- Achieved **75%+ test coverage** by writing unit tests and following Test-Driven Development practices.

GUVI Geek Networks   *Chennai, India*
Software Developer Intern   **Sep 2023 – Apr 2024**
- Developed backend automation tools and admin workflows using **Node.js** and scripting utilities, improving efficiency by **25%**.
- Worked on production features used by **3,000+ learners**, collaborating with design and product teams.
- Resolved **2000+ student queries** and mentored learners in **MERN Stack** and web development.

- Built internal tools for hackathons, cron jobs, dashboards, and reporting, improving team productivity and data insights.

Key Projects

Full-Stack eCommerce Platform (MERN)
React, NodeJS, ExpressJS, MongoDB
Developed a complete eCommerce solution with authentication, product management, cart, and payments. Optimized API calls and database queries, reducing load time by **35%**.
Greeting App with Multilingual Support
ReactJS, Flask REST API
Built a modular greeting application with time-based messages and i18n support, enhancing UX for global users.
Custom WordPress Theme & Plugin
PHP, MySQL
Designed reusable themes and plugins with secure AJAX forms, used by **50+ users**.

Certifications

- AWS Cloud Practitioner Essentials – AWS
- JavaScript Algorithms and DOM – freeCodeCamp
- PHP with MySQL Web Development – Coursera
- WordPress for Developers – Udemy

Additional Highlights

- Strong problem-solving, debugging, and production support skills.
- Experience working in fast-paced startup and agile environments.
- Passionate about learning modern JavaScript frameworks and backend scalability.
